**SunRise Solar Inc.**

# For Immediate Release

St John, IN, 2/2/2007:

## NW Indiana Manufacturer Scores National Recognition

**BUILDER NEWS MAGAZINE** The Largest Regional Building Trade Magazine In The Nation, Latest To Recognize The SunRise Solar Attic Fan. SunRise Solar's solar-powered roof-mounted attic fan removes heat and moisture from the attic, reducing energy consumption and extending both HVAC and roofing life. It's a power roof vent operating on solar energy instead of electricity. A built-in solar panel transforms sunlight into electric power; plus, it's easy to install. *Builder News Magazine December 2006*

SunRise Solar Attic Fan Voted One Of The Most Valuable Products Of The Year for 2005 and again in 2006. *Building Products Magazine 2005 and 2006*

- For more information contact Roman Sawczak 219-558-2211 media@sunrisesolar.net.

### **SunRise Solar Attic Fan**

After only four years SunRise Solar has made a solid impact on the solar industry and attracted interest and business worldwide. Revenues for 2006 were up a staggering 240%. Today you can see The SunRise Solar Attic Fan all across the United States including places like Honolulu International Airport and reaching out to the Caribbean Islands and England just to name a few.
