BOTTOM VIEW

# STOP READ FIRST

### Installation

- 1) Take the Savior out of the delivery box, unwrap (assemble and attach filter if required out of the shipping box) and then place it on the surface of your in-ground or above ground swimming pool or spa.
- 2) Once Savior is in the pool or spa, with the solar panel facing up and filters in the water
- 3) Be sure the Savior can see direct sunlight for it to run and filter the water.
- 4) If you have anything in the way of sunlight within your pool water surface, then you may tether (leash) the Savior in a sunlit area of your pool.
- 5) There is no On or Off switch. To turn off the unit, place a towel on top of the solar panel or remove from pool or spa and gently place upside down on the ground in a shaded area.

## PLEASE KEEP OFF SAVIOR UNIT

NO SITTING, CLIMBING, JUMPING OR STANDING ON SAVIOR UNIT
