EZ Heat Basic can be installed anywhere in just minutes!

Installs Anywhere

Install anywhere the sun shines:
On a roof, on a sloping rack, on a patio or deck or flat on the ground.

Installs in minutes with just a screwdriver. Standard 1½" plumbing for easy installation to your pool's filter system. Additional accessories available for roof or rack mounting. Special sizes available on request.

Quick, do-it yourself installation
You don't even have to hire someone to install it. You can install in less than 30 minutes with no special skills. It's as easy as 1, 2, 3...

1. Select a sunny spot and unroll your EZ Heat
2. Connect a filter hose between EZ Heat and the filter outlet
3. Connect another hose between EZ Heat and the pool inlet

You are done! - Turn on both the filter pump and the control valve and EZ Heat starts heating your pool!
