

A Pool Heater With a Price That Will Delight You And It Heats Your Pool With Free Solar Energy

EZ Heat

Solar Systems for Above Ground Pools

Think how much more fun you will have in a pleasantly warm pool. Or just relax and enjoy!

Thousands of other people have been enjoying solar heated pools for over two decades. What are you waiting for?

You can carry your EZ Heat solar system home and install it in minutes in any sunny place...

- On a roof
- On a sloping rack
- On a patio or deck
- Or even flat on the ground

Features:

Factory assembled solar heating system.

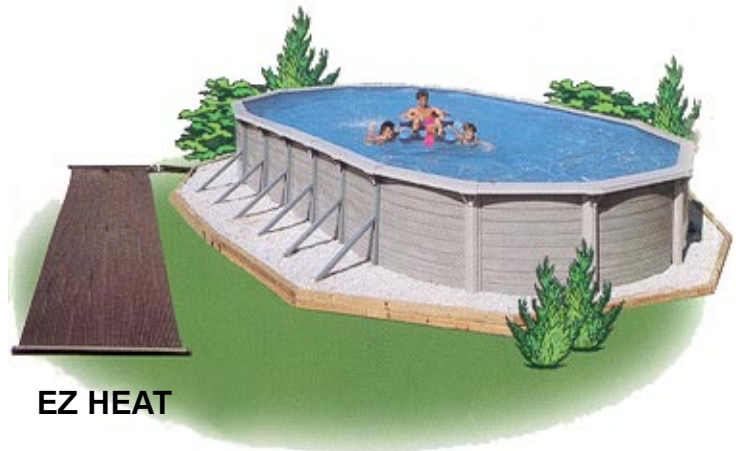

Quick and easy to install with a screwdriver.

EZ Heat has a built-in 3-port control valve so you can turn it off when the pool is warm enough.

EZ Heat Deluxe has an optional automatic electronic control.

Up to a ten degree warmer pool during the swimming season.

Increase the size of your system for an even warmer pool and a longer season by adding one or more EZ Heat Basic units.

EZ HEAT

EZ Heat Basic

**EZ Heat +
EZ HEAT Basic**

EZ Heat Deluxe

The ultimate above ground pool solar system. All the features of EZ Heat plus:

An oversized 4 x 25 solar collector with 50 solar collector tubes in parallel flow delivers maximum heat to the pool.

An oversize 3-port control valve.

An optional Automatic Electronic Control System that can be added anytime you want, to give you more convenience and comfort.

EZ Heat Deluxe

**EZ Heat Deluxe with System Extender
gives twice as much heat to the pool**

Pick the EZ Heat Solar System For Your Pool

Round	Oval	Solar System	System Size
12 or 15	10 x 15 to 12 x 18	EZ Heat 12	4 x 12
18 to 21	12 x 24 to 15 x 24	EZ Heat 20	4 x 20
24	15 x 30	EZ Heat 25	4 x 25
28	18 x 33	EZHeat 20 + EZ Heat Basic 20*	8 x 20
	20 x 40	EZ Heat 25 + EZ Heat Basic 25*	8 x 25

*Use EZ Heat Coupling Kit

IN-GROUND POOLS

We make other solar heating systems specially designed for in-ground swimming pools.

They are larger than EZ Heat so they will give you more heat for a larger in-ground pool or when you want a still longer swimming season. You can even use them to heat an indoor pool.

We supply them in kit form and they can be self-installed.
