

USB + AA Solar Charger

Ultra Compact • Ultra Lightweight • Easy to Use

The PowerFilm *USB+AA Solar Charger* is a foldable, lightweight, pocket-sized solar charger equipped with a USB charging port and removable, rechargeable AA batteries. The solar panels are mounted to a lightweight, weather resistant fabric that easily folds and unfolds for use and storage. The AA batteries can be used outside of the charger to power AA battery compatible electronics and in the charger they power the USB charging port. *A fully automatic and fast charger, capable of quickly charging all USB 2.0 compliant electronic devices like cellphones, smart phones, iPods™ and GPS systems, the USB+AA Solar Charger by PowerFilm, Inc. is perfect for everyday use.*

- *Folds up compactly to fit into pocket*
- *Charges all USB 2.0 compliant electronic devices*
- *Charges 2 AA rechargeable batteries*
- *Includes 2 high quality 'Eneloop' rechargeable batteries*
- *Ultra lightweight - weighs less than 5 oz.*
- *Ultra durable - military tested*
- *Convenient - 2 AA batteries store power permitting USB charging day or night*
- *Fast - Charges batteries in 4 hours or less*
- *Ideal for everyday use*

Specifications*	Solar Operating Voltage (V)	Solar Operating Current (Amps)	Weight w/o batteries (ounces)	Folded Dimensions (inch/mm)	Unfolded Dimensions (inch/mm)	USB Port Charging Voltage (V)	USB Port Charging Current (mA)
PowerFilm USB+AA Solar Charger	3.6	0.4	4.9	3.25 x 5.5 x 1.38 83 x 140 x 35	24 x 5.5 620 x 140	5.0	500

* Operating Voltage and Operating Current at AM 1.5. Power performance may vary +/- 10% due to temperature variation, spectral variation, and related effects.
