Sunmodule®

SW 240 mono

High-quality, high performance, and high reliability – the Sunmodule Plus® is designed and built for long-term yield stability and ease of use.

Every module is factory flashed at standard test conditions (STC) to determine the power output and then sorted in 5 watt increments. Only modules with a flashed power that is greater than or equal to the nameplate rated power are delivered. Flash report data is provided with every order.

The proven design of the patented low profile Sunbox junction box, has been installed on over 4,000,000 modules. Integrated by-pass diodes and sealed welded connections ensure reliability and eliminate failures resulting from exposure to the elements. The molded fins on the exterior housing dissipate heat quickly to ensure high reliability and long life.

The patented box channel frame design provides extraordinary stiffness in bending and torsion. The laminate with 4 mm glass is set deep in the frame channel and secured with precision applied adhesive. The frame is assembled by press fit to maximize strength and longevity. The result is an extremely robust package that can be mounted in any orientation and can withstand static loads of up to 113 psf.

SolarWorld provides a 5-year workmanship warranty* and 25-year linear performance guarantee*

*See warranty statement for details.
Sunmodules are manufactured in ISO 9001:2000 certified facilities.

This data sheet complies with the requirements of EN 50380.

**Performance under standard test conditions (STC*)**

Minor reduction in efficiency under partial load conditions at 25°C: at 220 W/m$^2$, 95% (+/- 3%) of the STC efficiency (1000 W/m$^2$) is achieved.

**Component materials**

- Cells per module: 60
- Cell type: monocrystalline silicon
- Cell dimensions: 156 x 156 mm$^2$

**System integration parameters**

- Maximum system voltage SC II: 1000 V
- Maximum system voltage USA NEC: 600 V
- Maximum series fuse rating: 15 A
- Maximum reverse current: Do not apply external voltages larger than $V_{oc}$ to the module

**Thermal characteristics**

- NOCT: 47°C
- $TC_{I_{sc}}$: 0.042 %/°C
- $TC_{V_{oc}}$: -0.33 %/°C
- $TC_{P_{max}}$: -0.45 %/°C

**Additional data**

- PTC rating: 213.2 W
- Junction box: IP 65
- Connector: MC type 4
- Module efficiency: 14.3%
- Power tolerance*: +/ -3 %

*Only modules with flash-tested power ≥ $P_{max}$ are delivered.

Linear warranty guarantees Year 1 module output to ≥ 97% of $P_{max}$

**System integration parameters**

- Maximum system voltage SC II: 1000 V
- Maximum system voltage USA NEC: 600 V
- Maximum series fuse rating: 15 A
- Maximum reverse current: Do not apply external voltages larger than $V_{oc}$ to the module

**Construction**

1. Front: tempered glass
2. Crystalline solar cells embedded in EVA (ethylene-vinyl-acetate)
3. Backsheet
