

Open Your Eyes to

INSTANT FROG®

MINERAL POOL CARE—
INSTANTLY!

SEE THE
MINERAL
DIFFERENCE.

INSTANT FROG® minerals help rid the water of nasty bacteria while conditioning the water for extra softness and a shine you can see your reflection in.

We call it “Mineral Pool Care—Instantly” because it goes to work as soon as you place INSTANT FROG® in your skimmer basket. With INSTANT FROG®, your pool needs much less chlorine—up to 50%* less.

IS INSTANT FROG® FOR EVERYONE?

INSTANT FROG® was made especially for existing in ground pools because there is no installation and it fits easily into most in ground skimmer baskets. Simply set the easy reminder dial to six months from date of purchase and let INSTANT FROG® handle the bulk of your water treatment needs. Then replace with a fresh one every six months.

If your pool is less than perfect, open your eyes and see what you've been missing.

That's right. Open your eyes under water and spend the day in the pool

without worrying

about dry, itchy skin, red, burning eyes or faded swimsuits. And take back the fun of your pool by reducing the work and increasing the pool's life. You can do all of this and more; not tomorrow, not next year, but right now—with INSTANT FROG®.

*Compared to the minimum EPA recommended chlorine level of 1.0 ppm for a stabilized swimming pool.
