

# There's Always an Alternative !

## The Right Stuff at the Right Time

- 99.99 % CHLORINE / CHLORINE DIOXIDE
- TRIHALOMETHANES
- PESTICIDE RESIDUES
- IRON RUST
- PHOSPHATES
- ORGANICS, SPORES AND ETC...
- SUSPENDED SOLIDS
- 1500 G / 5500 L LIFE

More often than not, new spa owners are plagued with water quality problems from the moment they fill their spas and more often than not, these common problems are directly attributable to the quality of the fill water. The PURE FILL SPA PRE-FILTER does a truly impressive job in mitigating up to 99% of the chemical contaminants and suspended solid from the water thus reducing and even eliminating the problem(s) !

- 1.) Connect filter to garden hose 2.) Fill Spa 3.) Store until next usage

Good for 3-5 fills and numerous top offs

### 0.5 MICRON, SOLID CARBON BLOCK

The adsorptive qualities of carbon block insure the removal of 100's of known chemical contaminants!

### RESINS FOR METAL MITIGATION

Metal removal resins are impregnated in the filter media and greatly reduce chance of spa staining.

### IS SIZE IMPORTANT

The block itself is rated at ZERO point FIVE microns; bacteria and protozoans are larger than this !

### SPA HEATERS LOVE THIS PRODUCT

Greatly reduce the problems associated with metal fowling and damaging of heaters / elements !

### DRINKING WATER QUALITY

This product provides fill water that's superior to many bottled water products for pennies a gallon !
