

AP Solar Collector Standard Frame Kit

This frame is suitable for flush installation on a pitched roof. If installing on a low pitched roof, or flat roof, an additional frame kit is required which will complement the components already contained in this standard frame kit.

Roof Attachment Options

Tiled Roof - *Roof Attachment Straps*

Corrugated Iron Roof - *Rubber Pads*

Asphalt Shingle Roof - *Either of the two options*

SAFETY CONSIDERATIONS

- Wear gloves when handling frame components
- If installing on corrugated iron roofs, always use rubber pads, thus preventing direct contact between galvanised iron and stainless steel frame.
- Ensure roof attachment points are structurally sound
- Follow relevant safety regulations regarding working on roofs

Frame Packing List

Component Name	Component Quantities	
	10,18 & 20 Tube	22 & 30 Tube
