FOR REGULAR SHAPED INGROUND POOLS

7A

Open cover over the pool and set into position. Ensure that the end of the cover (where it attaches to the roller) is square to the roller.

If the cover has seams, then the seams should be parallel to the roller. (This may not be possible with some types of covers.)

When cutting the cover, allow a 1 1/2" wide border around the pool edge to compensate for shrinkage.

GROMMET DETAIL

Position the blue strap on the cover. With the hole punch provided (item #207), punch a hole through the strapping and the cover. Ensure that the hole in the strap is at least 1 1/2" from the end of the strap and that the hole in the cover is at least 1 1/2" from the end of the cover. Use a piece of wood to avoid damaging the hole punch.

Insert female grommet (item #103) through hole in strapping and cover. Ensure that material is completely pushed down shaft. Insert male grommet (item #101) into female grommet. Once in place, hit gently with hammer until secure. (Caution - excess force will break grommet).

For odd shaped pools, pinch the cover and attach the strap as shown. Attach the cut cover to the roller with the blue straps (see grommet detail) by folding the cover in a straight line as shown in the diagrams. Ensure that the fold in the cover is straight.
