

# Polaris

Your pool. Our reputation.

We continually evolve and refine our industry-leading designs to provide you best-in-class pool cleaning products. The Polaris Sport Series captures the core features of the time-proven Classic Series you love and combines it with key enhancements and innovative features, such as:

- Stainless steel components
- Larger debris capacity
- Increased vacuum power
- Sleek and sporty look

All this gives you the ultimate durability, reliability, and performance you expect from Polaris.

## The Benefits of a Polaris Pressure Cleaner

### Maximizes Circulation & Heating

Enhances the swimming experience, providing a clearer body of water by returning clean filtered water throughout all areas of the pool. Disperses warm water during the heating process to the depths of the pool.

### A Healthier Pool

Independent booster pump operation keeps the skimmer free to remove surface debris and contaminants for a cleaner, healthier swimming experience. Sweep hose cleans tight corners and steps where other cleaners can't.

### Reduces Maintenance

Sweeps and scrubs the bottom and walls of any size or shape pool. Captures debris before it reaches the pump basket and filter, reducing filter cleaning up to 80%, thus prolonging the life of the filter.

### 3900 Sport

Optimized Vacuum Power. With the most vacuum power of any cleaner, the 3900 Sport supplements the pool's filtration system by circulating an additional 40 gallons of water per minute through its filter bag, thereby distributing clean, filtered water throughout all areas of the pool. The result is more even temperature throughout the pool and a cleaner, clearer body of water in less time.

**Legendary Performance**  
All-wheel PosiDrive system with durable stainless steel drive chain delivers 50% more torque for maximum speed, climbing, maneuverability, and performance.

**Incomparable Convenience**  
Dual-chamber zippered SuperBag picks up and stores more debris than any other cleaner for reduced maintenance.

**Unmatched Power**  
Powered by a booster pump, the Polaris® 3900 Sport has the most vacuum power of any cleaner. It picks up even the largest debris, while filtering and circulating water for a cleaner, clearer pool in less time.

**BONUS**

**Extreme Sweeping**  
Now includes TailSweep PRO™, an advanced sweep hose enhancement that provides maximum water propulsion to blow debris out of corners and hard to reach places, while also eliminating water from spraying outside the pool. No more spraying windows or plants.

## Booster Pump Power

Be sure your Polaris Pressure Pool Cleaner operates at optimal performance with a Polaris Booster Pump. The all new Polaris PB4-60 Booster Pump provides maximum power, so your cleaner can pick up even the largest debris, while circulating clean, warm water throughout all areas of the pool.

**NEW & IMPROVED!**

### Polaris PB4-60 Booster Pump

- Best pump to power your Polaris pool cleaner
- Improved hydraulic design for optimal performance and efficiency
- Quality components and durable 3/4 HP motor
- Ergonomic drain plug
- Energy efficient pump—operates on low flow filter pumps
