Solaer® SB3 and SB4

The Keeton Industries Solaer series of solar powered lake bed aeration systems are the ideal choice for remote ponds and lakes where power is not available or for an environmentally conscious solution. The SB-3 and SB-4 are effective in aerating ponds and lakes up to 4 surface acres in size. These systems come complete with a high efficiency solar panel, charge control system, battery back-up, EcoFlow energy efficient compressor, high volume cooling fans, programmable digital timer and a fully adjustable aluminum manifold housed in an attractive, 100% recycled plastic cabinet. Duraplate self-cleaning, non-clogging membrane diffusers emit millions of tiny bubbles that increase dissolved oxygen levels while eliminating stratification, improving water quality and clarity.

**The Cabinet**
- Attractive, 100% recycled plastic cabinet
- 20”W x 36”L x 27”T
- 37cfm cooling blower
- Two - 2 Valve Adjustable Manifolds
- Programmable Digital Timer
- Sound reduction package
- 1” ASTM certified Acoustical Foam
- Charge Control System
- Dual EcoFlow 24V Compressors

**The Tubing**
- Self-weighted
- 1/2” I.D. with 1/4” sidewalls
- Fishhook resistant
- Will not kink or break
- Available in 100’ and 500’ lengths
- 15 year warranty

**The Diffuser**
- Self-cleaning
- Non-clogging
- Self-weighted
- Fishhook resistant
- High Oxygen transfer
- Lifetime warranty
