NEW! SOLARSHEAT 1500G

Delivers free heating energy into your living environment, with the most cost effective form of solar energy on the market. It's the perfect supplemental heating source for reducing your monthly heating bills while cutting down on greenhouse gas emissions.

The SolarSheat 1500 G can heat an area of the home or room up to 1000 ft² or 93 m² when the sun is shining.

Solar Heat is the most efficient and cost effective form of solar energy 50% the cost of any other solar choice!

PRODUCT SPECIFICATIONS

Dimensions	87" x 43.15" x 3.8"
Energy Rating	1.5 kW
BTU/Hr.	BTU/Hr.
Gross Area	26 ft ² or 2.4 m ²
Weight	94 lbs /42.6 kg
Colour	Black
Type	Modular solar air collector
Material	Aluminum extrusion
Absorber	Aluminum
Glazed	Yes, tempered glass
Thermal Insulation	Ceramic bead, equivalent up to R20 rating
Power	PV system, 14.5 watts
Flow Rate	50 CFM
Switch Mode	External digital control
Fan	DC, ball bearing
CO ₂ Reduction	.35 tonne per year
Temp	120°F or 49°C
Mounting	Wall or roof
Warranty	One year from date of purchase
Manufactured in	Canada

- SCALABLE
- COST EFFECTIVE
- NO MAINTENANCE
- SIMPLE INSTALL

Wall mount or roof mount installation is quick and easy . Set the temp on the thermostat and enjoy free heat when the sun is out.
